

## **Simulated Emergency Test "SET" preparation**

SET scenario for October 3, 2020 - "COVID-19" Testing Station support

>>> All activity will be conducted in "Virtual" situations. <<<  
+ + + New operators to SET activities welcome + + +

**NCS Primary net - Voice operations 146.790**  
**(107.2)**

All active stations - Check-in to the primary net for assignment

NCM Logging utilized to track activities

**NCS Digital net - Voice & Digital Modes 147.330 (151.4)**

"Material support requests" via ICS-213 Testing Stations to Supply Depot

"Personal Management" via Spreadsheets/CSV file transfer between Testing stations

## **Goals:**

To notify members through established activation protocols for support of simulated COVID-19 Testing stations and Supply Depot utilizing Voice and Digital nets.

## **Objectives:**

- 1) Activation secures enough members to fully support the needs of the exercise.
- 2) Members respond appropriately to NCS direction in establishment of both voice and digital nets.
- 3) Digital nets utilize flmsg (ICS-213, Spreadsheet/CSV files ) appropriately to pass requests and information throughout the operation.
- 4) Net liaison Station: between Regional Net 146.94 (88.5) and Northland ARES voice and digital nets.
- 5) Participating members complete the Survey Monkey  
Operate a Hot Wash Net for all members to comment on the event  
NCS will advise operators after End-X  
AAR will be conducted during the October NLARES Monthly meeting.
